WELCOME

Who am I? I am Dr. Dvs, the creator and founder of this documented XRPL web3 experiment. Your lives have been ran by influence, starving your ability to rise up. The algorithms, they survey you, they analyze you, they trace you. Profiting from your existence. You have become their source of purpose.

This is why I have built my workshop. To take the remains of what was once innocent and transform the future through the rebirth of my creation. I have hired my staff. They are working day and night. My Terror Teddies will rise with a new breath and the army will be released upon this world. Twitter will be ours. WE WILL BECOME THE ALGORITHM!!!

I have chosen the XRPL to reward those most worthy. The ones who have shown to be true legends and diamond hands. You are the perfect specimen. Your ability to stand up against adversity, living and fighting with the hope for victory. You deserve this more than any other community and your commitment to the truth has been noticed. I will continue to watch. I have eyes and ears everywhere. We will harness the talents of this community through the power of web3. Everyone matters, one strength and one love.

Nothing is a coincidence and everything means something. Remember this along our journey. Everything I create will have value and nothing will be forgotten. Those with the greatest trust and endurance will be the most worthy.

-Dr. Dvs

VISION

Through community and art a vision can come to life

Build a community centered around art and the identity it provides. Each one completely unique, but together the same. Drive the education and the development while setting the precedent of influence and voice. The NFT blue-chip and standard for the XRPL.

9,999 original artwork PFPs roaming the blockchain and terrorizing twitter. We are a community united in the culture and we live without boundaries. We are web3.

Each Terror Teddies NFT is from a collection of rare and individually unique collectibles that provide verifiable ownership, token-gated membership and a key to unlock invisible doors.

PLOT

By day Dr. Dvs spends his time treating patients at the local hospital. Saving lives and creating a new tomorrow for his patients through his highly sought after surgical expertise. He is beloved in the community and has won many awards. Little do they know, his day doesn't end there. A double life, and a secret society he leads by night. His workshop runs while everyone else sleeps, releasing his creation to society. No one knows where these teddies are coming from. They terrorize the community and pull stunts all across town, from simple pranks to elaborate plans of attack. The community is always looking over their shoulder, not knowing when the next Terror Teddy will pop up. Some are just simply terrible, while others are completely terrorizing. Recruitment is open, are you terrible enough?

FOUNDER

Dr. Dvs

“All that is gold does not glitter,
Not all those who wander are lost;
The old that is strong does not wither,
Deep roots are not reached by the frost.

From the ashes a fire shall be woken,
A light from the shadows shall spring;
Renewed shall be blade that was broken,
THE CROWNLESS AGAIN SHALL BE KING.”

— J.R.R. Tolkien
